

**MARK  
FITZPATRICK**

— FOR GOVERNOR —

**2026**

**POLICY PLATFORM**

[www.MarkFitzIdaho.com](http://www.MarkFitzIdaho.com)

**DEDICATION**

**TO GOD & THE PEOPLE OF IDAHO:**

**The families, workers, farmers, and patriots who built  
this State and refuse to let it be taken from them.**

## PREAMBLE

# IDAHO IS NOT FOR SALE

## Restore power to the people and limiting government

Idaho was built by strong, independent people who believed in God, family, hard work, and freedom. Generations before us fought to secure these values, to protect their land, raise their families, and build communities rooted in responsibility and self-governance.

But today, those foundations are *under threat*.

Government has grown too large. Bureaucracy has replaced accountability. Outside influence and political insiders have attempted to reshape Idaho into something it was never meant to be.

Families are being pushed aside. Parents are losing control over their children's education. Taxes are rising while trust in government is falling. And the values that made Idaho strong are being challenged at every level.

**This platform is a commitment to reverse that decline.**

We will restore a government that answers to the people; not the other way around. We will defend the Constitution without compromise.

We will protect Idaho families, secure our communities, and ensure that our state remains free, strong, and independent.

We believe in Faith. Family. Freedom. And Leadership that refuses to back down.

We can **and we will** restore Idaho, together.

## **AGENDA**

# **THE FITZPATRICK AGENDA**

The priorities of my administration as Governor

- 1. End Government Waste and Corruption**
- 2. Protect Constitutional Rights**
- 3. Put Parents Back in Charge of Education**
- 4. Enforce Immigration Laws & Protect Families**
- 5. Property Tax Reform**
- 6. Protect Water Rights & Agriculture Industry**
- 7. Achieve Energy Independence**
- 8. Expand Healthcare Access**
- 9. Protect Public Lands and Natural Resources**
- 10. Invest in Infrastructure and Connectivity**

**When government is limited,  
accountable, and bound by the  
Constitution, the People will  
always remain free.**

**Today and together, with power  
returned to the people, authority  
restrained by law, and trust  
placed in God, not government...**

**We will preserve Idaho's freedom  
for generations to come.**

# CHAPTER ONE

## END GOVERNMENT OVERREACH AND RESTORE ACCOUNTABILITY

The Fitzpatrick Administration will dismantle government overreach and restore a limited, transparent system that answers to the people—not bureaucrats. We will reduce waste, eliminate corruption, and return power to Idahoans, ensuring no agency or official operates above the law and preserving freedom for generations to come.

### **1. Conduct a Full Government Audit**

We will implement a comprehensive, top-down audit of all state agencies to identify waste, redundancy, and abuse of power. Every department will be evaluated, and those that fail to serve the people efficiently will be restructured, reduced, or eliminated.

### **2. Establish Independent Ethics Enforcement**

We will create a truly independent ethics commission with real enforcement authority to investigate misconduct, hold officials accountable, and eliminate corruption at every level of government.

### **3. Eliminate Bureaucratic Overreach**

We will reduce the size and scope of government by cutting unnecessary agencies, removing excessive regulations, and restoring clear limits on administrative power. Government will return to its proper role—serving the people, not controlling them.

### **4. Ban Insider Influence and Special Privileges**

We will prohibit lobbyist gifts and insider advantages that distort decision-making. Public office will no longer be a pathway for personal benefit, but a responsibility to serve the people with integrity.

### **5. Enforce Transparency and Open Government**

We will strengthen public records laws, require full transparency in legislative and agency proceedings, and establish real-time public access to government spending. The people have a right to see exactly how their government operates.

### **6. Protect Citizen Power and Self-Governance**

We will defend the initiative and referendum process, veto any effort to weaken it, and ensure that Idahoans retain their direct voice in government. Power will remain with the people—not political institutions.

# CHAPTER TWO

## PROTECT CONSTITUTIONAL RIGHTS

*Idahoans' constitutional rights are not negotiable. We will defend free speech, religious liberty, and the right to keep and bear arms without compromise, ensuring government remains bound by the Constitution—not above it.*

### **1. Defend the Second Amendment**

We will oppose any infringement on the right to keep and bear arms. Idahoans will retain full constitutional protections, and we will ensure state law reinforces those rights against federal overreach. Law-abiding citizens will not be punished for exercising fundamental freedoms guaranteed by the Constitution.

### **2. Protect Religious Liberty**

We will defend the right to practice religion freely without government interference or coercion. Individuals, businesses, and organizations will not be forced to violate sincerely held beliefs. Idaho will remain a place where faith is protected, not restricted.

### **3. Safeguard Free Speech**

We will protect the right to free expression and prevent government from censoring lawful speech. Public institutions will not be used to silence political viewpoints or suppress dissent. Open dialogue and the free exchange of ideas will be preserved.

### **4. Enforce Equal Application of the Law**

We will ensure laws are applied equally to all individuals regardless of political affiliation or status. Selective enforcement undermines trust in government and will not be tolerated. Accountability will apply to every level of authority.

### **5. Limit Government Overreach**

We will establish clear boundaries on government power to prevent violations of constitutional rights. Agencies and officials will operate within defined limits, ensuring that individual liberty is protected at all times.

# CHAPTER THREE

## EDUCATION AND PARENTAL RIGHTS

*Parents—not bureaucrats—should control their children’s education. We will restore parental authority, guarantee transparency, expand school choice, and refocus education on real skills and values that prepare Idaho’s next generation.*

### **1. Restore Parental Authority**

We will ensure parents have full access to curriculum, materials, and school policies affecting their children. Families will have the final say in educational decisions, and schools will be accountable to parents—not bureaucracies.

### **2. Ensure Curriculum Transparency**

We will require full transparency in all school curriculum, materials, and instruction. Parents will have clear access to what is being taught in classrooms, ensuring accountability and preventing hidden or inappropriate content from being introduced without their knowledge.

### **3. Focus on Core Academic Skills**

We will prioritize reading, mathematics, science, and history to ensure students are prepared for real-world success. Classrooms will focus on measurable outcomes, not political agendas or unnecessary distractions.

### **4. Strengthen Career and Technical Education**

We will expand workforce training programs that prepare students for high-demand careers. Education will align with Idaho’s economic needs and provide practical opportunities for long-term success.

### **5. Increase Accountability in Schools**

We will ensure schools meet clear performance standards and remain accountable to families and communities. Systems that fail to deliver results will be reformed to improve outcomes.

# CHAPTER FOUR

## ENFORCEMENT OF IMMIGRATION LAWS & PUBLIC SAFETY

*Law and order will be restored and enforced across Idaho. Full cooperation with federal authorities will be required, sanctuary policies eliminated, and decisive action taken to stop crime, trafficking, and lawlessness in our communities.*

### **1. Enforce Immigration Laws**

We will require full cooperation with federal immigration authorities and prohibit sanctuary policies across the state. Idaho will uphold the rule of law and prioritize the safety of its citizens.

### **2. Deny Benefits to Illegal Residents**

We will ensure state resources are reserved for lawful residents. Public benefits funded by taxpayers will not be extended to individuals who are unlawfully present.

### **3. Strengthen Law Enforcement Support**

We will provide law enforcement with the resources and authority needed to effectively protect communities. Officers will be supported in carrying out their duties without unnecessary restrictions.

### **4. Combat Drug Trafficking and Organized Crime**

We will increase enforcement efforts against drug trafficking, human trafficking, and criminal networks. Stronger coordination and enforcement will reduce crime and protect Idaho communities.

### **5. Protect Community Safety**

We will implement policies that reduce crime and strengthen public safety. Idaho families deserve to live in secure, stable communities free from violence and disorder.

### **6. Protect Jobs for Idahoans**

We will ensure employment opportunities are prioritized for lawful Idaho residents by enforcing hiring laws and preventing illegal labor practices. Idaho workers will not be displaced or undercut by those who are not authorized to work.

# CHAPTER FIVE

## PROPERTY TAX REFORM & LOWERING COSTS FOR FAMILIES

*No Idaho family should be taxed out of their home. We will cap excessive increases, bring transparency to the system, and ensure property taxes are fair, predictable, and accountable to the people.*

### **1. Conduct a Full Government Audit**

We will implement a comprehensive, top-down audit of all state agencies to identify waste, redundancy, and abuse of power. Every department will be evaluated, and those that fail to serve the people efficiently will be restructured, reduced, or eliminated.

### **2. Establish Independent Ethics Enforcement**

We will create a truly independent ethics commission with real enforcement authority to investigate misconduct, hold officials accountable, and eliminate corruption at every level of government.

### **3. Eliminate Bureaucratic Overreach**

We will reduce the size and scope of government by cutting unnecessary agencies, removing excessive regulations, and restoring clear limits on administrative power. Government will return to its proper role—serving the people, not controlling them.

### **4. Ban Insider Influence and Special Privileges**

We will prohibit lobbyist gifts and insider advantages that distort decision-making. Public office will no longer be a pathway for personal benefit, but a responsibility to serve the people with integrity.

### **5. Enforce Transparency and Open Government**

We will strengthen public records laws, require full transparency in legislative and agency proceedings, and establish real-time public access to government spending. The people have a right to see exactly how their government operates.

### **6. Protect Citizen Power and Self-Governance**

We will defend the initiative and referendum process, veto any effort to weaken it, and ensure that Idahoans retain their direct voice in government. Power will remain with the people—not political institutions.

# CHAPTER SIX

## PROTECTING OUR WATER RIGHTS & AGRICULTURAL INDUSTRY

*Idaho's water and agricultural economy will be protected and strengthened. We will defend water rights, reduce burdens on farmers and ranchers, and prioritize the industries that sustain our state and way of life.*

### **1. Defend Idaho Water Rights**

We will protect Idaho's water sovereignty and ensure access remains secure for agriculture and local communities. State control over water resources will be preserved against outside interference. Idaho's water policies will prioritize in-state needs and long-term sustainability over external pressures.

### **2. Invest in Water Infrastructure**

We will support projects that improve storage, distribution, and long-term sustainability of water systems. These investments will strengthen reliability for both rural and urban communities. Modern infrastructure will ensure Idaho is prepared to meet future demand and changing conditions.

### **3. Support Farmers and Ranchers**

We will reduce regulatory burdens and expand access to financial resources for agricultural producers. Policies will ensure Idaho's agricultural sector remains competitive and sustainable. Farmers and ranchers will have the support needed to operate efficiently and grow.

### **4. Promote Local Agriculture**

We will strengthen local food systems and support Idaho producers through improved supply chains. This will enhance economic resilience and reduce dependence on outside sources. Local agriculture will remain a central pillar of Idaho's economy.

### **5. Ensure Long-Term Sustainability**

We will balance economic growth with responsible resource management to protect Idaho's agricultural future. Sustainable practices will preserve water and land resources for generations to come. Long-term planning will guide responsible development.

# CHAPTER SEVEN

## ENERGY INDEPENDENCE & BUSINESS INCENTIVIZATION

*Affordable, reliable energy is essential to Idaho's future. We will expand responsible energy production, protect ratepayers, and ensure Idaho remains energy strong and independent. By reducing unnecessary regulations and supporting innovation across all energy sources, we will keep costs low and supply secure.*

### **1. Protect Ratepayers from Rising Costs**

We will prioritize policies that keep energy prices stable and affordable for Idaho families and businesses. Excessive regulations and mandates that increase costs will be eliminated to protect consumers. Reliable energy pricing will support both households and economic growth.

### **2. Strengthen Hydropower Infrastructure**

We will maintain and expand hydropower systems as a reliable and cost-effective energy source. Investments will focus on long-term capacity, modernization, and system reliability. Hydropower will continue to serve as a foundational element of Idaho's energy supply.

### **3. Support Energy Innovation**

We will encourage development of advanced energy technologies, including nuclear and grid modernization. Innovation will strengthen Idaho's ability to meet future energy demands. New technologies will improve efficiency and reliability across the system.

### **4. Reduce Barriers to Energy Development**

We will streamline permitting and eliminate delays that prevent responsible energy projects from moving forward. Efficient processes will support timely development and lower costs. Clear regulatory standards will ensure projects can proceed without unnecessary obstacles.

### **5. Ensure Energy Security**

We will prioritize in-state production and protect critical infrastructure to maintain a stable and independent energy supply. Long-term planning will ensure Idaho remains energy secure. A strong energy system will reduce vulnerability to external disruptions.

# CHAPTER EIGHT

## HEALTHCARE ACCESS

*Access to affordable, quality healthcare will be expanded across Idaho, especially in rural communities. We will support providers, increase competition, and reduce costs for families. By improving access, strengthening local systems, and removing barriers, we will ensure Idahoans receive dependable, timely care.*

### **1. Expand Telehealth Services**

We will increase access to telehealth to ensure rural communities receive care without unnecessary travel. Technology will improve accessibility and efficiency across the healthcare system. Expanded services will help close gaps in care availability.

### **2. Increase Competition in Healthcare**

We will promote competition among providers and insurers to lower costs and improve care quality. A competitive system will benefit Idaho families and expand options. Increased choice will drive better outcomes for patients.

### **3. Support Healthcare Workforce Growth**

We will recruit and retain medical professionals by reducing administrative burdens and supporting workforce development. This will strengthen care availability statewide. A stable workforce will ensure consistent access to services.

### **4. Improve Price Transparency**

We will require clear and accessible healthcare pricing so patients can make informed decisions. Transparency will reduce unexpected costs and increase accountability. Patients will have better control over healthcare decisions.

### **5. Remove Barriers to Care**

We will eliminate unnecessary regulations that delay treatment and limit access. Patients will receive timely and efficient care without bureaucratic interference. Streamlined processes will improve system performance.

# CHAPTER NINE

## PUBLIC LANDS AND NATURAL RESOURCES

*Idaho's public lands and natural resources will be preserved and protected. Access will remain open, conservation will be strengthened, and these resources will be safeguarded for future generations. We will promote responsible use, protect outdoor heritage, and ensure long-term sustainability for Idaho communities.*

### **1. Strengthen Conservation Efforts**

We will protect Idaho's natural resources while allowing for responsible and sustainable use. Conservation policies will balance environmental protection with economic needs. Responsible management will preserve resources for future generations.

### **2. Expand Wildfire Prevention Efforts**

We will invest in forest management and wildfire prevention to reduce risk and protect communities. Improved coordination will strengthen response capabilities. Proactive strategies will reduce long-term damage and costs.

### **3. Support Responsible Land Use**

We will ensure land use policies support both conservation and economic development. Balanced management will allow for long-term sustainability. Development will proceed in a way that protects Idaho's natural assets.

### **4. Protect Outdoor Access**

We will preserve access to hunting, fishing, and recreation across public lands. Idaho's outdoor traditions will remain protected and accessible. Public lands will continue to serve the people of the state.

### **5. Coordinate with Local Communities**

We will ensure land management decisions reflect local priorities through collaboration with stakeholders. Community input will guide responsible policy decisions. Local knowledge will play a key role in shaping outcomes.

# CHAPTER TEN

## INFRASTRUCTURE & CONNECTIVITY

*Strong infrastructure is critical to Idaho's growth and safety. We will prioritize efficient investment, improve roads and bridges, and expand broadband access to connect every community across the state. By focusing on long-term solutions, we will strengthen reliability, support growth, and improve daily life.*

### **1. Invest in Rural Infrastructure**

We will improve roads, bridges, and essential systems in underserved areas to support safety and economic growth. Investments will focus on reliability and long-term value. Rural communities will receive the attention needed to maintain strong infrastructure.

### **2. Expand Broadband Access**

We will ensure high-speed internet is available across Idaho, especially in rural communities. Connectivity will support education, business, and access to services. Expanding access will strengthen economic opportunity statewide.

### **3. Improve Spending Efficiency**

We will implement performance-based planning to ensure infrastructure investments deliver measurable results. Taxpayer dollars will be used effectively and responsibly. Accountability will guide every project decision.

### **4. Reduce Project Delays**

We will streamline regulations and permitting processes to accelerate infrastructure development. Faster project completion will reduce costs and improve outcomes. Efficient systems will support timely progress.

### **5. Plan for Long-Term Growth**

We will develop infrastructure strategies that support future population and economic expansion. Planning will focus on sustainability, reliability, and long-term success. Idaho will be prepared for continued growth.

# FAQs

## FREQUENTLY ASKED QUESTIONS

*Straight answers from Mark Fitzpatrick on the issues Idahoans are asking about most. No spin. No backroom deals. Just the truth — exactly as Idaho deserves.*

### 1. What is your stance on Data Centers?

Data centers are massive industrial facilities filled with thousands of computer servers that store, process, and transmit enormous amounts of digital data for companies like Google, Amazon, Microsoft, and Facebook. They power cloud computing, artificial intelligence, streaming services, and much of the modern internet.

I am not automatically against data centers, but I am strongly against approving them unless they are a clear net positive for the people of Idaho. Idaho has limited water and electricity resources. We must never sacrifice the needs of Idaho families, farmers, and existing businesses to accommodate giant out-of-state tech corporations.

- I will only support data centers if they deliver real, measurable benefits to Idahoans first — including good-paying local jobs, significant tax revenue, and infrastructure improvements that do not strain our water or power supply.
- Every proposal will receive full public transparency. There will be no backroom lobbying deals. I will bring these companies into open town halls and my Governor's Podcast so Idahoans can ask tough questions directly.
- Idaho's water, power, and land belong to the people of Idaho, not to Big Tech. If a data center cannot prove it is a clear win for our families and our future, it will not be built here under my administration.

### 2. What is your stance on Geoengineering and Chemtrails?

We must immediately pursue the full truth about geoengineering and chemtrails. We the People have a right to know exactly what is being sprayed into our skies, and whether any of it is damaging our health, our soil, our water, or our food supply. The secrecy alone leads me to believe there are nefarious purposes behind these programs. As Governor, I will not dismiss concerned citizens as conspiracy theorists. I will demand real answers.

- Launch a transparent, independent review of all geoengineering and atmospheric programs affecting Idaho.
- Bring the top officials from federal and state agencies and the major corporations involved into open, public town hall meetings so Idahoans can question them directly.
- Put these same officials on my Governor's Podcast where I will ask the tough, direct questions the media refuses to ask.
- Publicly release all findings so the people can see the truth for themselves.

If any of these programs are releasing substances that harm human health or the environment, I will fight aggressively to stop them. We will create laws to ban any further poisoning of our land.

### 3. The Left says you are a sex offender — is this true?

No. I am not a sex offender, and I have never committed any sex crime of any kind. I have been faithfully and happily married to my wife Sarah for 23 years.

The person the Left is smearing me with is a completely different man who happens to share my first and last name. He is a former Sergeant with the Los Angeles County Sheriff's Department, convicted in 2011 of multiple felonies for sex crimes involving traffic stops. I served 15 years as a police officer with the Newport Beach Police Department and left in 2014 in good standing with a completely clean record. I never worked for the LA County Sheriff's Department and never held the rank of Sergeant. His birth year is 1969 or 1970. Mine is 1978.

This is a deliberate, malicious lie. The Left knows we are two different people, but they continue to spread the falsehood anyway because they cannot defeat my record or my message on the issues. I will not allow dishonest activists to define me by another man's crimes.

#### **4. Is it true you recently committed fraud in a real estate transaction?**

No. I did not commit fraud. Not even close. I am a licensed Idaho real estate broker and my real estate company was added to a lawsuit five days after I announced my candidacy for governor.

In January 2025, a buyer filed a lawsuit against the homebuilder and the previous owners — my clients — after discovering foundation issues. My company was not originally named. The sellers had been informed by the builder's own engineers that there were no significant problems with the foundation. The Pojars later dismissed my company from their counterclaim in November 2025. Then, more than 14 months after the original lawsuit was filed — and just five days after I publicly announced my run for Governor — the plaintiff suddenly added my company.

Over my career, I have completed more than 500 real estate transactions from \$100,000 to over \$15 million. I have never had any court action or Realtor association judgement against me personally. I operate with complete transparency and integrity, and that will never change.

#### **5. Do you support Brad Little's LAUNCH Program?**

No, I do not support Governor Little's LAUNCH program. While it may sound good on the surface, I believe it represents more government expansion and spending at a time when Idaho needs to be shrinking government and cutting taxes — not creating new programs.

As Governor, my focus will be on getting government out of the way — slashing taxes, reducing regulations, exposing waste, and letting the free market and Idaho's own people drive real prosperity. We don't need more government "launch" programs. We need freedom and self-reliance.

#### **6. Tell me about your life.**

My name is Mark Fitzpatrick. I was born in Los Angeles in 1978. My father served 40 years as a police officer. I grew up attending Catholic schools but became a committed non-denominational biblical Christian in my late teens. I played Division 1 soccer at Cal State Northridge, graduated with a BA, and then served as a police officer with the Newport Beach Police Department from 1999 to 2014, leaving in good standing with a clean record.

While on duty, I met my wife Sarah. We agreed to court, got engaged two months later, and were married four months after that. We have been happily married for 23 years and have six children, ages 12 to 21. We homeschool our kids and are raising them grounded in faith, family, and freedom. Today, I own a real estate brokerage and development company, an events center, and Old State Saloon in Eagle, Idaho.

## **7. Why did you leave police work? Were you fired?**

No, I was not fired. I left police work on good terms with a clean record. In my later years as a police officer, one of my businesses was growing rapidly — I had over 20 full-time employees while still working full time as an officer, and my wife and I had six young children. Even though I loved being a police officer, it eventually became too much to do both jobs well. I left the Newport Beach Police Department in good standing with no complaints or issues.

## **8. Do you support the idea of a Monarchy?**

No, I do not support the idea of a monarchy for the United States or for Idaho. A monarchy puts far too much power in the hands of one single person, and any human being can be corrupted by that kind of power. History has shown us repeatedly what happens when too much authority rests with one ruler.

God has blessed us with an amazing Constitutional Republic. As Governor, I will govern as a servant of the people — not as a king. Idaho's government will be accessible through public open-invite town hall meetings, daily social media, podcasts, and frequent press conferences. Idaho deserves actual transparency.

## **9. Are you the same ex-cop named Mark Fitzpatrick who was convicted for sex crimes?**

No, I am not. The man who was arrested and convicted for sex crimes is a completely different person. He has the same first and last name, but a different date of birth and a different middle initial. He worked for the Los Angeles County Sheriff's Department, not Newport Beach. I did not know this man. I am not associated with him in any way. My record is clean. My character is clean. And I will not allow these lies to go unchallenged.

## **10. Is it true you adopted a child?**

Yes, it is true. My wife Sarah and I adopted our son through the foster care system over 13 years ago. He is our fifth child out of six, and we love him deeply. We didn't see skin color. We saw a child who needed a family. James 1:27 says, "Pure and undefiled religion before God and the Father is this: to visit orphans and widows in their trouble."

Under my administration, Idaho will root out all corruption in the foster care system. The private sector, citizens, and Churches will be encouraged to get far more involved in fostering, adopting, and supporting single parents.

## **11. Are you an antisemite? Do you hate LDS/Mormons? Do you hate Muslims?**

No, I am not an antisemite. I do not hate LDS/Mormons, and I do not hate Muslims. I am a Christian. I love people, and I believe every human being is made in the image of God and deserves to be treated fairly and equally under the law, exactly as our Constitution demands. We can still work together as fellow Idahoans — even if we disagree on matters of faith. My faith in Jesus Christ guides my life, but it does not prevent me from treating every person with dignity and respect.

## **12. Do you support Israel / AIPAC?**

I am pro-America, always. I do not support giving any foreign country, including Israel, a blank check with American tax dollars or unconditional loyalty. I am especially wary of the enormous influence of groups like AIPAC and any foreign lobbying that puts another nation's interests ahead of America's.

I will never accept money, donations, or support from Israel, AIPAC, Mossad, or any other foreign government or lobbying organization. My loyalty belongs only to the United States and the people of Idaho. As Governor: America First. Every decision will be judged by one standard — what is best for the American people and the state of Idaho.

### **13. Are you for or against the legalization of Marijuana?**

I am strongly against the legalization of marijuana in Idaho, including medical marijuana. Our state government is plagued with too much corruption, deception, and massive lobbyist influence. As long as that corruption exists, I am a hard NO on any form of marijuana legalization.

I refuse to support anything that would lead to more teenagers using marijuana, developing lifelong psychosis, becoming dependent on Big Pharma, and turning into a permanent burden on society. Legalizing marijuana is not progress. It is a step backward.

### **14. Are you for or against Ranked Choice Voting?**

I am strongly against Ranked Choice Voting. It is a dangerous scheme that confuses voters, weakens election integrity, and often produces winners who do not have majority support. It allows candidates to win without ever receiving the most first-choice votes, undermining the basic principle of “one person, one vote.”

Idaho has a simple, straightforward voting system that works. As Governor, I will fight any attempt to bring Ranked Choice Voting to Idaho and I would veto it if it hit my desk. We need clear, honest elections where the candidate with the most votes wins.

### **15. Do you support selling Idaho's power and water to other states?**

I support selling Idaho's power and water to other states only when it clearly benefits Idahoans first and only after our own people and future needs are fully taken care of. Idaho's water and energy resources belong to the people of Idaho. Any potential sale must meet strict conditions:

- It must generate significant revenue that directly lowers taxes or improves infrastructure for Idahoans.
- It must not risk future shortages for our state.
- It must never come at the expense of Idaho families or farmers.

Every deal would be completely transparent — terms made public immediately. No backroom deals. No hidden contracts. Idaho's resources exist to serve Idahoans first.

### **16. You started Heterosexual Awesomeness Month. Do you hate gays and LGBTQ?**

No, I do not hate gays or anyone in the LGBTQ community. When I started Heterosexual Awesomeness Month, my original goal was simple: to celebrate God's beautiful design for sexuality and marriage as a positive alternative during Pride Month.

I am allowed to have different moral beliefs. Disagreeing with someone's actions or ideology does not mean I hate them. I love people. All people. Every human being is made in the image of God and

deserves basic dignity and respect. I will always speak truth boldly, especially when it comes to protecting children — but I do so without personal hatred toward any individual.
